**Our ethical code drives CAND**

Dear numismatists,

*Welcome to the inaugural Canadian Association of Numismatic Dealers (CAND) Directory.*

All of our dealer members – each of the fine people listed in this directory – subscribe to a strict code of ethics, which is reproduced in this publication as well as on our website, [cand.org](http://cand.org). When a dealer applies to join CAND, they are taking a pledge to conduct their business within the parameters of this code, which strives to advance and promote trust in the numismatic marketplace.

Furthermore, at least two existing CAND members are required to vouch for each applicant's suitability as a dealer.

Why is our ethical code so important? First and foremost, it's a way for you, as collectors, to understand how we, as dealers, conduct our business.

Consider purchasing something for your home. Are you confident in dealing with a company that doesn't belong to a certifiable, reputable network, or would you prefer doing business with a company that belongs to the Better Business Bureau or your local Chamber of Commerce?

Dealing in numismatic material is no different than consumer products or services.

If someone wishes to become a serious, respectable dealer and sell to the public, it only makes sense for them to belong to their country's national dealer association.

When you, as a collector, see a dealer displaying the CAND logo, it tells you several things about how they do business. Our dealer members are professionals who take their business very seriously. They have a long-term vision and won't disappear at the drop of a hat. They can be relied on to treat collectors honestly, fairly and honourably. Lastly, if a problem does arise with one of our dealer members, you can rely on CAND to investigate the situation impartially and remedy any wrongdoings.

This is especially important at a time when anyone can sell material online without having to join an association or subscribe to any ethical standards.

The fair treatment of collectors and safeguarding of their personal information are serious concerns for all of us at CAND.

For your own protection, we recommend you seek out the CAND logo whenever you purchase numismatic material at a show, storefront or online. You know you'll be buying with confidence.

Finally, I would like to thank our dealer members who purchased advertisements in this first edition of the directory. Your support funds this publication and is greatly appreciated by us at CAND as well as the numismatic community at large.

## **Canadian Association of Numismatic Dealers**

The **Canadian Association of Numismatic Dealers** is a non-profit association of professional numismatists organized in 1975 under a letters patent as Canada 70,067 Inc.

The function of CAND is to ensure a high degree of professionalism by its members. Each CAND member has signed a strict code of ethics, which is enforceable by our by-laws.

CAND members are engaged in the retail numismatic trade, primarily in Canadian numismatics, and may conduct business from anywhere in the world.

Members of CAND include coin dealers, coin show operators, publishers, supply manufacturers, bullion dealers, foreign exchange dealers, auctioneers, paper money dealers, and foreign coin and paper money dealers.

CAND features a mechanism for redress of grievances against members, and a performance fund for at least partial compensation to wronged collectors should the dealer be unable to fulfill his obligation.

# ***Canadian Association of Numismatic Dealers***

## **CODE OF ETHICS**

The following is the Code of Ethics that must be agreed to by every applicant before membership is granted.

As a coin dealer, I recognize my obligations towards the public and towards fellow members in my industry. It is my intention to be worthy of the confidence and respect of those with whom I come into contact in the numismatic trade. For this purpose I have pledged myself as follows:

### **In my relations with the public I pledge:**

1. To furnish my clientele advice on numismatic matters to the best of my ability.
2. To sell at prices commensurate with a reasonable return on my investment and the then prevailing market conditions.
3. To purchase coins from the public at reasonable prices, with due allowance for buyers' risks and prevailing market conditions.
4. To neither broadcast, publish nor advertise in any matter, a representation or an implication with the intent to lead a false or incorrect conclusion with regard to my own goods, prices or services, or in regard to the goods, services, or prices of a competitor, or lay false claim to a policy.
5. To assist recognized government authorities in the prosecution of violators of the law in numismatic matters.
6. To refrain from knowingly dealing in stolen coins, medals or other numismatic material or publication, or offering counterfeits as genuine coins; and when knowingly selling altered coins as such, to furnish the buyer with an invoice showing in detail the nature of such coins sold.

### **In my relations with fellow-members of the Association I pledge:**

1. To refrain from voluntary public expressions of adverse criticism of other members, or their merchandise.
2. To recognize and respect my own contracts and undertakings and those of fellow-members.
3. To exchange credit information freely with fellow members when requested.
4. To avoid false statements or representation in my relations with my competitors, and co-operate generally towards the betterment of our industry and the hobby in my relations with fellow-members.
